

Community Outreach Agreement

Name: _____

DOB: _____

Date: _____

Parrish Dentistry's outreach program is our way to provide dental care for individuals in our community who may not be able to afford the costs associated with high quality dentistry. This program is not government sponsored. In return for reduced fee care, individuals accepted into the program are expected to arrive for appointments in a timely manner and may be asked to make lifestyle changes (quitting smoking, improved diet, improved oral hygiene, etc.) to increase the effectiveness of treatments. Any cancelled or missed appointments are grounds for dismissal from the program immediately. Upon completion of treatment, lifetime preventative care and maintenance is highly encouraged.
